Subject: FW: H. Harrison \$1500

Lt Cobb,

While it appears Mr Harrison is still confused about his activities from last night prior to and during his encounter with us, based on the serious allegations he is making even though he has refused to make a written complaint, please look into this and document your findings.
Thanks.

DOC # 0-P20646

Subject came to the front desk today after he had been released from protective custody, he said when deputies made contact with him in Walmart (Pace) last night he had with him 15 one hundred dollar bills plus about 3 grams of powder coke, 3 grams of meth and a baggie with a small amount of m/j. He said when he was released the money was not in his possession. He also said the drugs are gone and he was not charged. He admitted to being intoxicated last night and at one time having a half a gallon of vodka with him. He indicated he was told in the jail that Deputies Miller and Perkins delt with him last night. I asked him if it was possible he left the money with someone last night (girlfriend, mother...) he said he would check and call me back. Lt. Rob White checked the video from when he was brought to the jail last night at approximately 0417 hours and no money is seen on the video. I asked Mr. Harrison if he would make a statement under oath concerning this matter and he refused. He still smelled of alcoholic beverage when he spoke to me this afternoon.
